Applicant is aware of a device on the market that Applicant believes infringes at least one originally filed claim of the referenced U.S. Patent Application. Applicant performed a rigid comparison of the alleged infringing device with the as-filed claims of the referenced U.S. Patent Application and, in his opinion, at least one of the claims are unquestionably infringed.

Applicant asserts that he has performed, through his attorney, a search of the prior art, particularly class 356/416. Applicant has previously filed an Information Disclosure Statement and Form-1449. The references listed on Form-1449 are deemed most closely related to the claimed subject matter of the referenced U.S. Patent Application.
